

BUILD UP NOT OUT

CE ELEVATORS. THE SMART CHOICE.

DISCOVER THE FINANCIAL BENEFITS OF BUILDING & DESIGNING WITH A CE ELEVATOR

CAMBRIDGE
ELEVATING^{INC.}

THE BENEFITS OF BUILDING UP

ATTAIN **HIGHER LAND YIELDS** WHEN YOU **INCLUDE A CE ELEVATOR** IN YOUR NEXT DESIGN. MAINTAIN YOUR COMPETITIVE EDGE. STAY ON TREND TO BE TODAY'S PROGRESSIVE BUILDER.

SMART BUILDING

10% LESS

TWO STOREY

BUNGALOW

SAVE ON CONSTRUCTION

Multi-storey homes cost 10% less per square foot to build. With smaller foundations and roof lines multi-storey homes require less materials. Using the money saved to add an elevator will increase your resale value.

SMART PLANNING

40' LOT

SAVE SPACE

The compact footprint of multi-storey homes allows more choice for location selection. This makes incorporating an elevator into a multi-storey home ideal for in-fill projects and new developments.

SMART LAND USE

60' LOT

40' LOT

SAVE ON LAND COSTS

Land is the most expensive part of a home and bungalows require more. At \$4,000* per front foot a bungalow can cost \$80,000 more than a multi-storey home of the same square footage, much more than the cost of an elevator.

* Based on industry averages

OUT WITH THE OLD

IN WITH A NEW DESIGN PHILOSOPHY

IT'S TIME FOR BUILDERS & DESIGNERS TO START RETHINKING HOW THEY DESIGN LIVING SPACES.

BUNGALOW FLOORPLAN

(2200 SQ.FT. / 41' WIDE)

Bungalows have less livable space, wasting valuable square footage on travel paths.

VS.

TWO STOREY FLOORPLAN

(2200 SQ.FT. / 31' WIDE)

A home with an elevator provides the same level of access with a more functional layout.

Compact lift mechanics and cabs allow for flexibility with placement in both new builds and retro-fits.

CE ELEVATORS. THE **SMART CHOICE. FOR THESE AND MANY OTHER REASONS.**

► **INCREASE RESALE VALUE** ◀

► **ENTERTAIN ON ANY LEVEL** ◀

► **MASTER RETREAT LEVEL** ◀

► **FUTURE-PROOFING** ◀
