Convenient access to all levels

Whether it's commercial or residential use, outdoor or indoors, Symmetry Vertical Platform Lifts eliminate the barrier that stairs can cause for people with limited mobility. A cost effective solution, platform lifts create convenient access without compromising architectural character.

The Symmetry VPL Model SL is designed in compliance with ICC/A117.1, NEC, and ASME A18.1. The entire Symmetry VPL Product Line is designed around ADA 4.11 compliance and public and private accessibility. Symmetry VPLs are suitable for indoor and outdoor use.

Standard Features

- 750 – 1,000 pound capacity
- Speed: 10 FPM, 1 HP, 115V (Acme Screw Drive);
20 FPM, 1 HP, 115V (Accelerated Acme Screw Drive);
17-20 FPM, 2 HP, 115V (Hydraulic)
- Lifting height: up to 60" for commercial applications and
168" for residential applications
- Steel constructed with electrostatic, powder-coated finish
- **A.W.A.R.E. system (Active Wiring, Accessories, Relay, and Electronics Diagnosis)***
- Constant pressure up/down control switch installed on the platform
- Constant pressure, elevator-style, hall call control station provided at each landing
